**DETAILED ACTION**

***Response to Amendment***

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 5 is rejected under 35 U.S.C. 102(e) as being anticipated by Kambayashi et al. (U.S. 20030004888).

As to claim 5, Kambayashi et al. disclose an information supply server comprising a storage part that stores user service information including fixed information which is updated at intervals of a predetermined period and update information which is updated at intervals of a period shorter than the predetermined period; and communication means that transmits, in response to a request from outside, at least one of the fixed information and the update information which are stored in the storage part (See paragraph 0014, 0193, 0266, 0271,0274).

***Allowable Subject Matter***

Claims 1-4, 6-8 are allowed.

***Response to Arguments***

Applicant's arguments with respect to claims 1-8 have been considered but are moot in view of the new ground(s) of rejection.
